Designtex Surface Imaging Capabilities

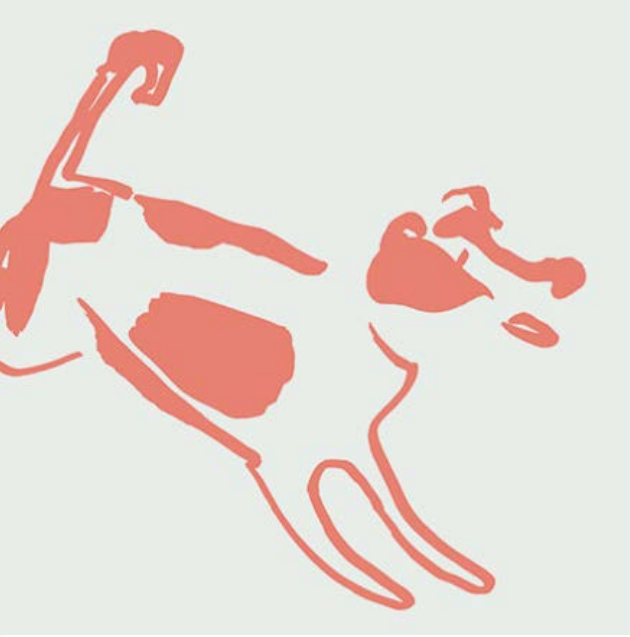

Designtex Made-to-Measure

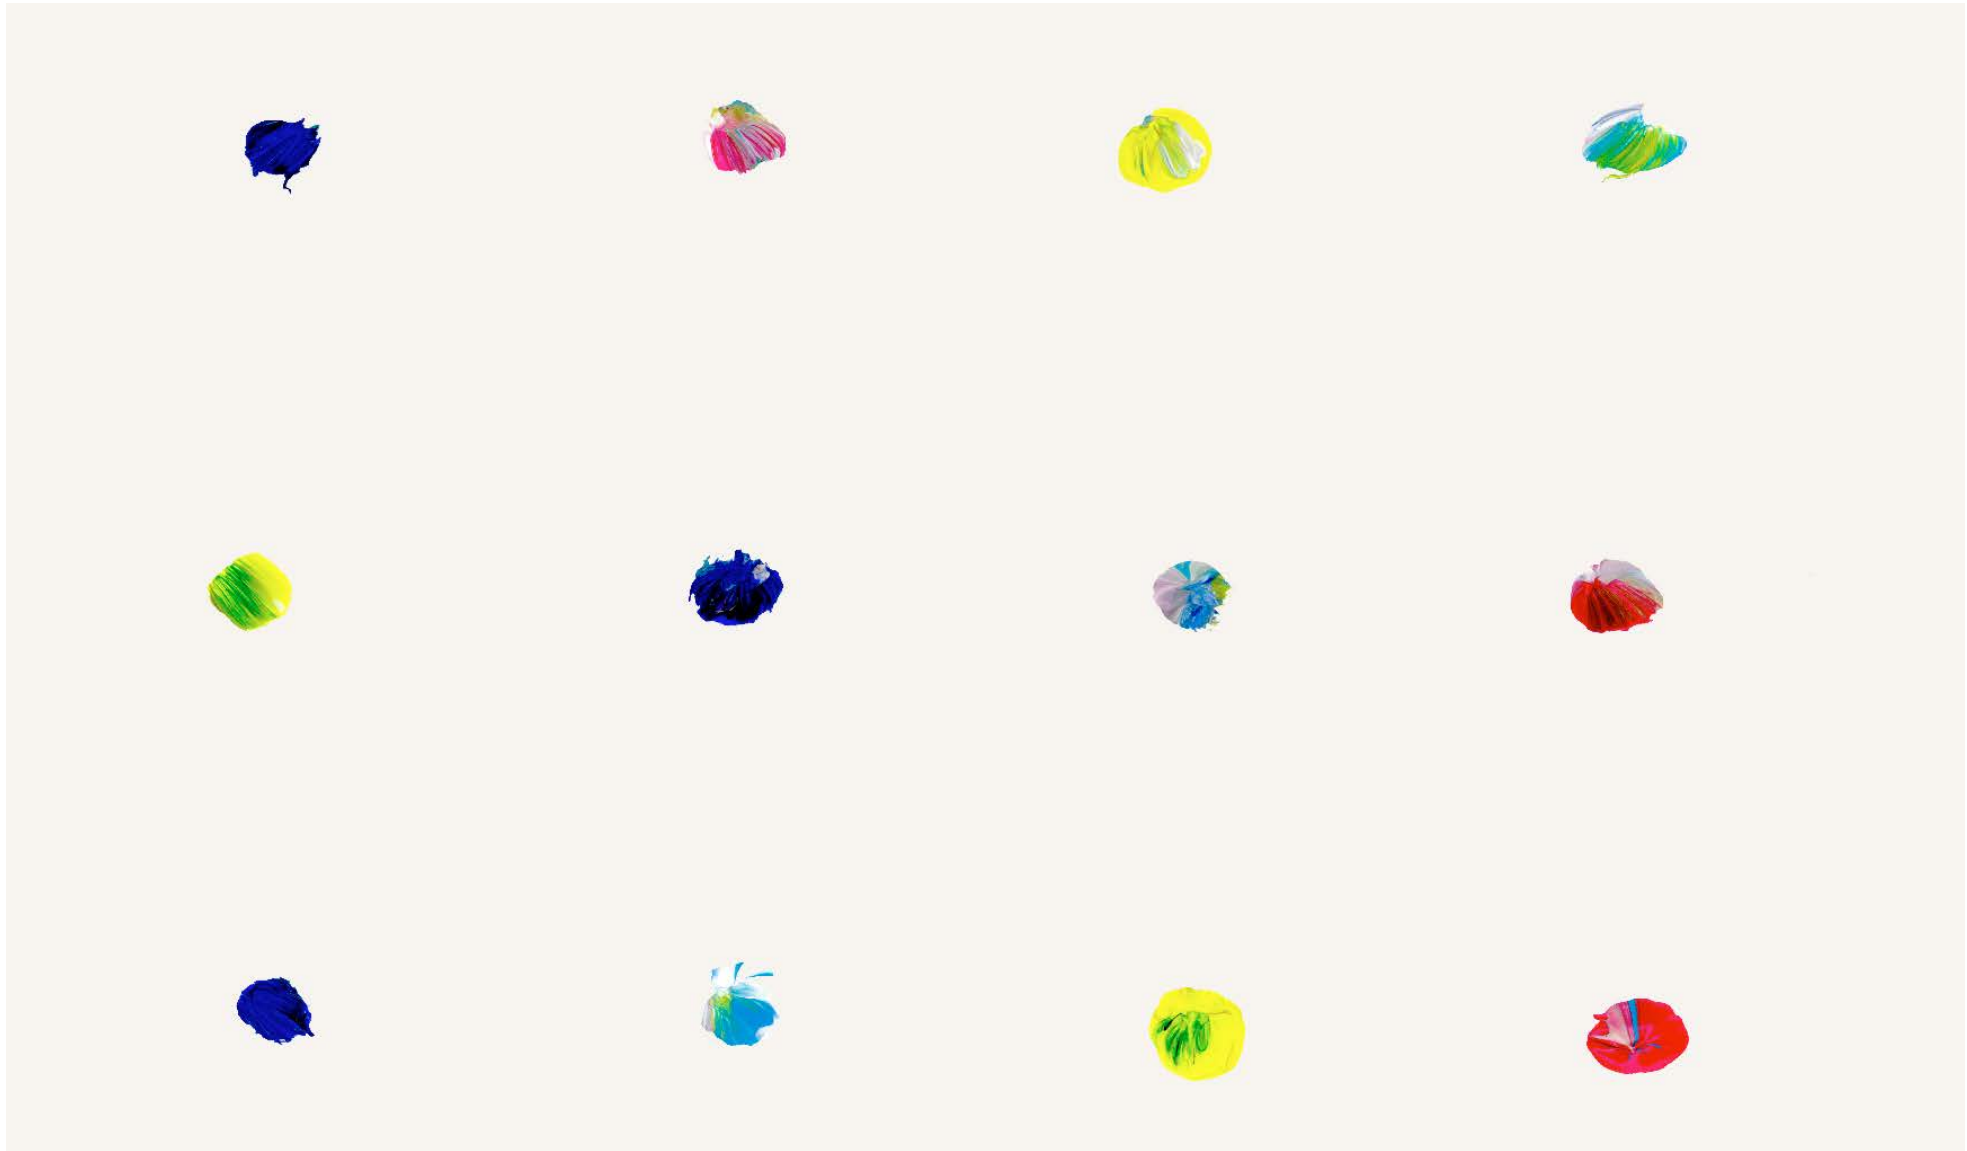

Designtex Made to Measure offers architects and designers the opportunity to create customizable wallcovering solutions that are as unique as the buildings and spaces they design.

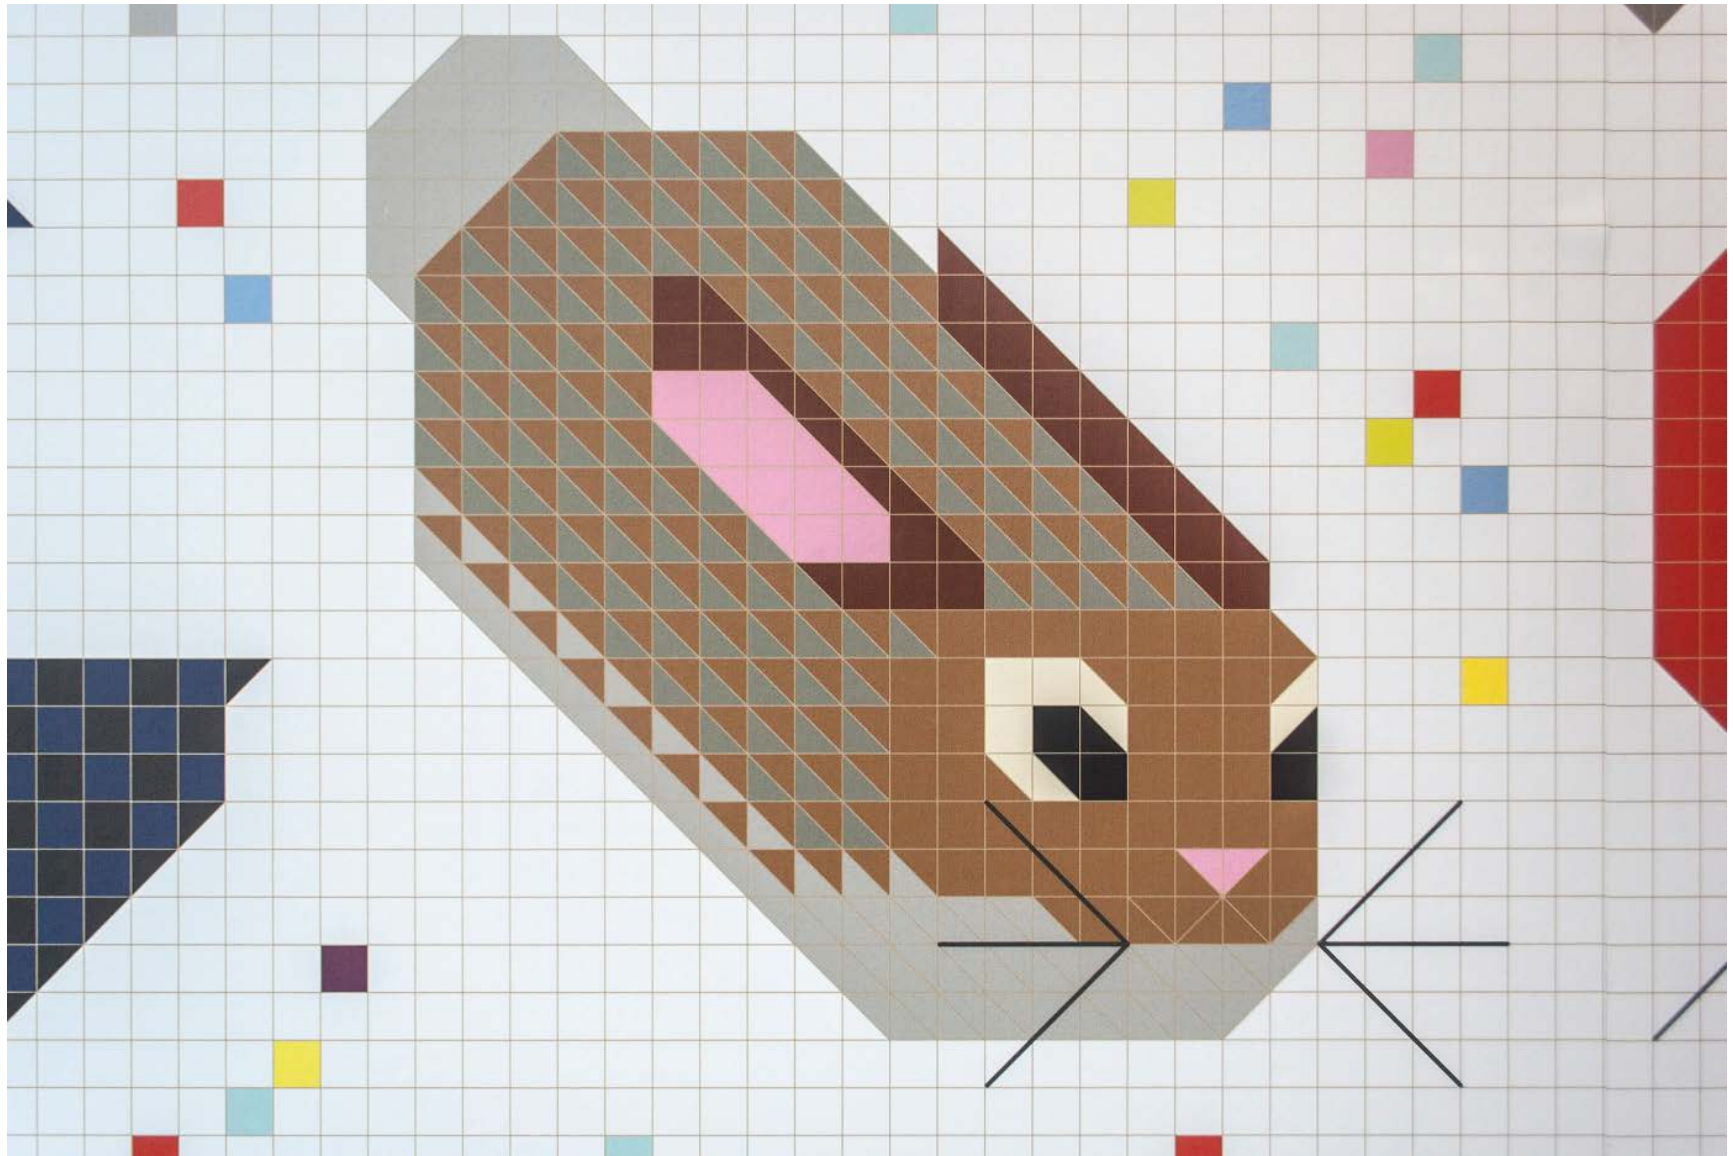

Each Designtex Made to Measure wallcovering is available with an array of options. These may vary by imagery, color, subject or scale, specified across a wall or individually by panel. Select from among the many options to compose a unique wallcovering configuration.

Designtex is the leading company in the development, design and manufacturing of applied materials for the built environment. For over fifty years, Designtex has been providing innovative materials to customers around the world.

Designtex Bespoke

Featured imagery

Dynamic pairings of imagery and substrates combine to create digitally printed surfaces uniquely tailored for branded architectural environments.

Shapes, by Catherine Stowell, is included in the Bespoke Image Portfolio available for printing on a variety of substrates. Graphic from viewed afar with a lattice of fine lines revealed when viewed up close, the design has applications in corporate, educational, and healthcare environments.

The Image Portfolio is used as a resource for custom digital projects featuring work by contemporary artists and photographers. Imagery can be digitally printed on a range of substrates including ceramic steel, wallcovering, decorative rigid panels, textiles, glass film, and magnetics.
